

Empower Your Team with RestoreCore University

Our commitment goes beyond just responding to emergencies—we're here to support you at every stage before, during, and after a disaster. RestoreCore University, a cornerstone of Our Proven Process, is designed to boost your team's confidence and capabilities in managing property emergencies.

Best of all, our courses are offered to clients at no cost—because your success is our priority. Let's build a stronger, more resilient partnership together.

Key Topics We Currently Offer:

8 Essentials of Disaster Planning: 1 Hour

Uncover the essential elements for the most effective disaster planning in just one hour.

Water Damage & Mold: 1 Hour (CMCA 1 Credit)

Gain essential knowledge on the causes and impacts of water damage, and how it can lead to mold growth. This course covers mold prevention, health risks and guides you through the key steps of effective remediation.

Waiting for Help and Restoration Basics: 1 Hour (CMCA 1 Credit)

Learn the essential actions to take while waiting for restoration experts and what to expect when they arrive. Be prepared for the aftermath and ensure you're ready when it matters most.

The Insurance Claims Process: 2 Hours (CMCA 2 Credits)

Understanding the claims process can be tricky! Here we'll review roles, industry language, different policy types and restoration steps during the insurance loss.

Soft Skills: 1 Hour

Discover essential skills-like communication, teamwork, and time management-that help maintenance teams stay effective, professional, and calm under pressure.
